1.10 Data Viewer Training . . . 4
1.11 Field Worker Training . . . 4
1.12 Security . . . 4
1.13 License . . . 4

VA Explorer is a Django web application, built to both demonstrate verbal autopsy data management and analysis capabilities and act as a foundation for exploring new concepts.

Note This project is under active development.

Contents

1.1 Background

Content about Background.
